To Whom It May Concern,

Please find this letter as a recommendation for Ms. Lee Miao En, who has been working as a secondary science teacher in our school, Axcel International School for the past two years. I have had the opportunity to work with her in a variety of ways during this time period.

Miao En has been an asset for the school ever since she joined and she has been a favourite with the students. She has a wonderful rapport with people of all ages, especially students. Her ability to connect with students and her talent at teaching simple concepts, as well as more advanced topics, are both truly superior. Miao En is a patient and creative teacher. She spends countless hours mentoring her students and developing strategies to increase her student's achievement. She shows creativity in preparing her teaching slides as well as setting questions to test the understanding of the students.

With her positive attitudes, it is with pleasure that I recommend Miao En for a position which will provide her with the opportunity to grow in her educational career. I wish her the best as she pursues this next phase of her career.

Please feel free to contact me by email at hoyin@axcel.edu.my if you have any questions about this outstanding young lady. Thank you for your time.

Sincerely,

Kok Ho Yin
Subject Leader of Biology
Axcel International School
