To whom it may concern

It is with great pleasure I write this letter in support of Ms. Lee Miao En. I have had the opportunity to be the Physics subject leader during the 2021 year for Axcel International School. She was able to deliver the contents well to students and connected well with the students.

She is familiar with the Lower Secondary Physics scheme of work and is passionate in her lessons and classes.

Ms. LeeME also utilizes technology and fun applications well to make lessons more engaging for the students.

I would like to recommend Ms. LeeME to be part of your teaching staff.

Regards,

Mr. Samuel
